Please visit our official website at www.tp-link.com to download the necessary driver for these systems: <ul style="list-style-type: none"> • Windows 7/8 • Mac OS X 10.9 to 10.15

2 Using the Hub

This hub supports the Plug and Play feature. Plug the USB-C connector into your host device, then plug in your external peripheral into the corresponding port of the hub.

Note: A PD charger (not included) is not required. If you wish to use a PD charger to charge your host device, please refer to **Tips (2B)**.

Tips:

1. When not in use, please unplug or remove the external peripherals from the hub first, and then unplug the hub from your host device.
2. If you need to connect a PD charger to the hub's USB-C PD port, please:
 - A) Notice that it only has the charging function and is input only.
 - B) Use an original or certified PD charger to charge your host device. The output of the PD charger should meet the input specifications of the USB-C PD port.

Safety Information

- When the product has a power button, the power button is one of the ways to shut off the product; when there is no power button, the only way to completely shut off power is to disconnect the product or the power adapter from the power source.
- Do not attempt to disassemble, repair, or modify the device. If you need service, please contact us.
- Keep the device away from water, fire, humidity or hot environments.
- This equipment can be powered only by equipments that comply with Power Source Class 2 (PS2) or Limited Power Source (LPS) defined in the standard of IEC 62368-1.

Recycling

-  This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE).
 This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.
