H5 4G **2K**

4G Smart Home Camera

———

Wide-ranging coverage, versatile connection

With the H5 4G, you can easily create a security system even in open, Wi-Fi-challenged areas. It is equipped with 2K video, person and vehicle detection, and activity-triggered active defense to relieve many of your pain points for 24/7 outdoor monitoring. As a reliable camera, it functions well during the nighttime and in bad weathers, providing a low-maintenance solution for lasting peace of mind.

No Wi-Fi? No Problem!

If you need an extra eye in places where the Wi-Fi is inaccessible or unstable, the H5 4G cellular camera is ready to save you from such problem. It uses a 4G SIM card to stay online, so it can be installed in much wider, varied locations. Or, you can still have it wired via the RJ45 Ethernet port.

Dual Connectivity Options

4G LTE with Nano SIM Card

Cable Network with RJ45 Ethernet Port

The camera does not support using Wi-Fi network. A nano SIM card and a mobile data plan or cable are required to use the camera.

See clearer, protect wider

To meet the growing demands to well protect a wide variety of outdoor space, the H5 4G brings its vision to 2K so as to capture important moments down to the tiny details.

Advanced detection for enhanced peace-of-mind

The on-device AI algorithm enables the camera to detect walking people and running vehicles, greatly reducing false alerts triggered by natural environments such as moving trees or insects. It promptly notifies you if a person enters your monitored area or a vehicle is parked there.

Adjustable sound and light alarm

The camera offers an additional level of security with its active defense function. When it notices intruders, it triggers a powerful siren and flashes at them with two spotlights² to warn them on the spot. What's more, users can flexibly adjust the sound and light alarm settings to suit their preferences.
Designed to make protection last all night

01 *Impressive, far-reaching night vision*

The H5 4G camera ensures that no one sneaks in under
the cover of darkness. It helps you see far enough
to know what's going on around your home.

30 m (98 ft)   **20 m (65 ft)**

02 *Three useful night vision modes will suit any need*

- **Full-color night vision**

  With its F1.6 large-aperture lens and dual built-in spotlights,
  the H5 4G adds lights to video for improved clarity, resulting
  in vibrant and detailed color imaging for enhanced home security.

- **Black-and-white night vision**

  If you don't want the lighting to disturb your neighbors, just go
  with the infrared night vision by changing on the EZVIZ App.

- **Smart night vision**

  Or, let the camera decide. In smart mode, the camera
  will automatically light up the environment upon
  detection of human motion.

H.265 video technology

50% Video Storage Space

50% Required Bandwidth
H.265 creates a smoother viewing experience while only using about 50% of the data storage space required by cameras with H.264.[4]
Dual storage options

SD 512G

Safely store important moments or cute memories on a large local storage card, or by subscribing to the EZVIZ CloudPlay.[5]

1 Please note that the H5 4G camera only operates with a 4G network and does not work with a Wi-Fi connection.

2 The spotlight will not flash when Color Night Vision mode is enabled.

3 Google Assistant is not available in certain languages.

4 Data from EZVIZ Lab's test results under standard conditions. The video compression efficiency will vary with the frequency and complexity of the activity captured, as well as other environmental factors.

5 Local storage cards must be purchased separately. The cloud storage service is only available in certain markets. Please verify availability before making a purchase.
