## Easily improve front-door security

---

Upgrade your deadbolt with this smart lock in no more than 10 minutes! Simply mount it on the door from the inside. No screwing, drilling, or permanent changes are required.

\*Follow our [Installation Check](#) to find out if EZVIZ Smart Lock fits your door

## Greatly satisfy your taste in front-door design

---

The DL01 Pro uses metallic material to withstand the elements and better blend with your modern-style front door.

## Unlocking is as easy as sliding open your phone

---

While the DL01 Pro preserves the option to use your original door keys, it supports Bluetooth connection to allow unlocking via your phone. Never stress yourself about a lost key. You'll always have access to your home at your fingertips.

## Sharing digital keys with people you trust

---

It's easier than ever to create permanent or time-limited access for your family and friends. If you want to make your home available for short-term rentals, the lock also comes in handy.<sup>2</sup>

**Family members**  
who visit on holidays

**Close friends**  
who come by often

**Babysitters or pet walkers**  
who walk in regularly

**Short-/Long-term tenants**  
who stay temporarily

# Take care of the door after you leave

## Auto-lock in case you forget

Going out in a hurry? The Smart Lock will lock itself after you close the door, so you don't stress yourself about a left-open access.

 Auto-Lock  Auto-Lock Delaying Timer

## Alert upon a left-open door

In case you forget to close the door firmly, a mobile alert will be instantly sent to your phone within the Bluetooth-supported range.

 Door-Left-Open Alert

## Set do-not-disturb hours for sweeter dreams

When it's late or whenever you need privacy, you can schedule a time period to disable mobile unlocking.

# The matching mates for more smartness

When connected to a physical keypad and a home gateway, the kit further offers multiple unlocking methods and remote control functions that provide additional convenience to the user.

Smart Lock

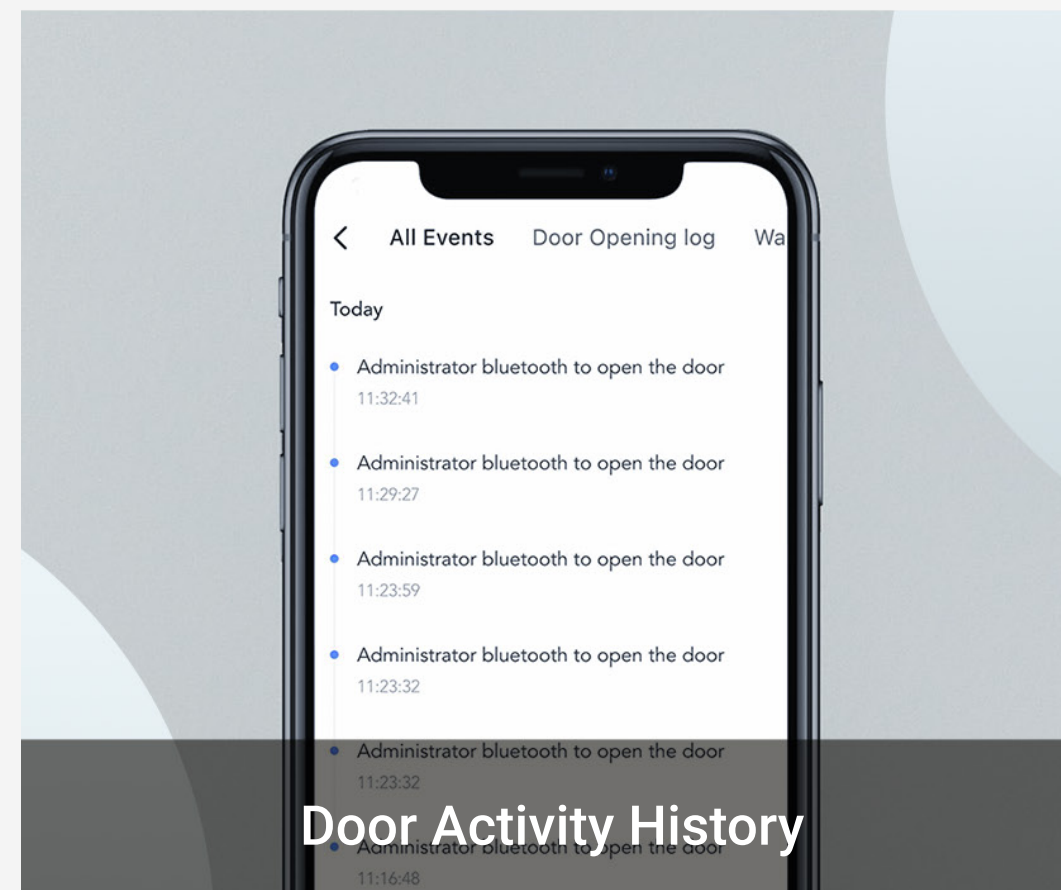

## More flexible ways to unlock

With the additional keypad, visitors can enter even without your presence, and leave digital activity logs for you to check remotely.

**Real-time Alerts**

**Door Activity History**

## Keep track of door activities

With the help of the gateway, the lock will create an activity log on your EZVIZ app and send you notifications whenever someone opens your door.

1 When not connected to the EZVIZ Home Gateway, the DL01 Pro Smart Lock only allows user management and status check via Bluetooth. Users need to be in close proximity to the lock to use such features successfully.

2 The temporary access code and remote unlock feature are only available when the lock is connected to both the keypad and the home gateway, which are sold separately.

# Specifications CS-DL01Pro

## Technical Parameters
